

High-pressure, Low-flow Barrel & Tank Cleaning System

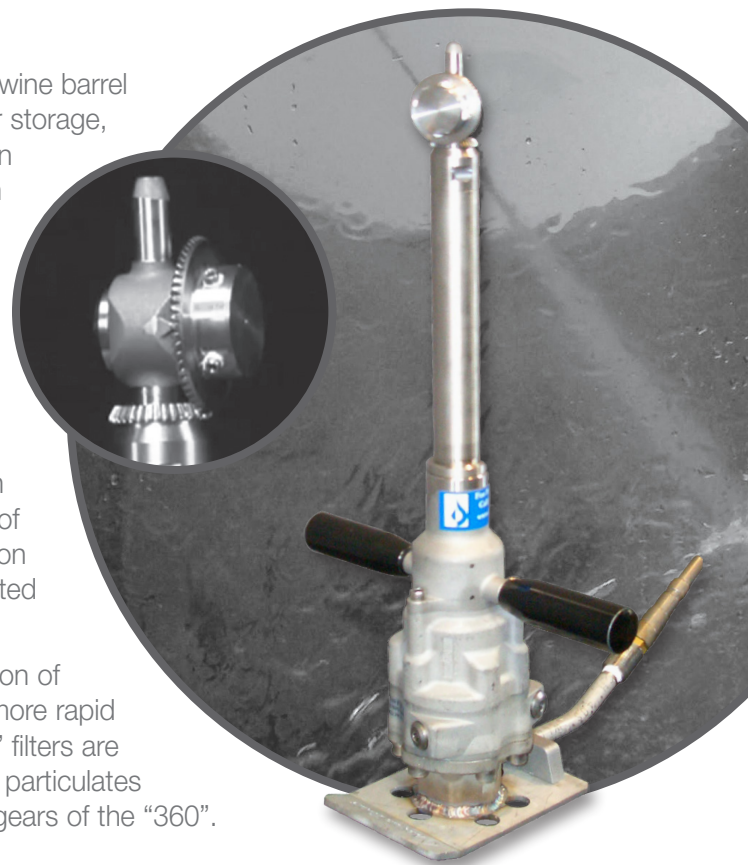

Robust. Powerful. Reliable. Affordable.

AaquaBlaster 360

Clean barrels sell more wine! Before a wine barrel can be sanitized for reuse or treated for storage, it has to be clean. The risks that you run from a microbial standpoint alone when putting good wine into questionable barrels are many.

AaquaTools AaquaBlaster 360 is a robust and powerful barrel cleaning tool that produces like new barrels in a minimal amount of time. This fluid-driven, water-saving device can be driven by nearly any hot or cold high pressure washer that produces 4 gpm of flow or more and is designed for insertion into barrels with the bung opening pointed directly downward.

The higher the flow, the faster the rotation of the nozzles, which in turn produces a more rapid cleaning cycle. High pressure in-line “Y” filters are recommended and available to prevent particulates from interrupting the internal rotational gears of the “360”.

Features

- Rapid cleaning cycles & low flow rate
- Two or four nozzle configuration
- Quick change nozzle configurations
- Configurable inlet flows
- Oversized gears
- Small size

Benefits

- Saves time, water and money
- Adaptable to barrel or tank cleaning
- Allows the tool to be used in tanks up to 10' tall
- Driven by nearly any hot or cold high pressure washer
- Smoother motion and withstands greater pressure
- Built for small openings like 55 gal drums or wine barrels for easy insertion

Specifications

Class	Rotating jet-head
Power	Pressure washer-driven
Flow Rate	4-5.5 gpm
Temperature	Cold or hot up to 185°F (max)
Pressure	100-2000 psi (adjustable); 2300 psi (permissible)
Nozzles	Barrels 4 x 1/8" npt, tanks 2 x 1/8" npt
Spray Coverage	6-10'
Cleaning Cycle	45 seconds and longer
Spray Pattern	360°
Inlet Connection	Standard 1/2" NPT
Insertion Opening	2" (max)
Lubricant	Self-lubricating
Installation	Portable or fixed
Material	316 Stainless Steel
Weight	8 lbs
Warranty	One year limited warranty

Ordering Information

AaquaBlaster360	AaquaBlaster 360 System, 2 or four nozzle
HotCart	HotCart hot high pressure washer
107146814	KEW Poseidon 7-67 cold & hot water pressure washer
AaquaTrk1	AaquaTruck wine barrel hand truck
WBW/Power-Coated	Mounting rack, 2 or 4 wine barrel platform
ANT4C	Hydro Twister® 4-in-1 surface cleaner

Applications

Barrel washing, tank washing, tote/IBC cleaning, storage tank washing, fuel tank cleaning.

Special Features

The AaquaBlaster 360 is made of 316 stainless steel and is unique because the drive unit is located external of barrel and about 15 inches below the spray head. The drive incorporates a minimal amount of parts and has been utilized in hundreds of similar applications worldwide with great success for many years.

The AaquaBlaster 360 incorporates a plate at the base that stabilizes and protects the cleaning device during and after insertion. The AaquaBlaster 360 allows for easy insertion into wine barrels mounted on most Western Square or TOPCO type barrel pallets and can be incorporated into traditional barrel cleaning platforms that contain rotational rollers.

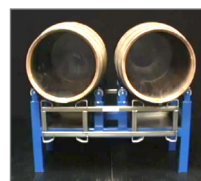

Compatible Products

HotCart Hot High Pressure Washer – Just provide the water and we'll heat it up to 185°F with flows up to 13.2 gallons per minute. With AaquaTools HotCart hot high pressure washer option, you can enjoy hot water and high pressure up to 2750 psi with flows up to 5.5 gpm.

Poseidon Hot & Cold High Pressure Washer – The KEW Poseidon 7-67 premium class industrial cold & hot (up to 185°F) water pressure washer combines the renowned lifetime and quality of the C3 pump with optimal ergonomics to bring an unbeatable heavy duty pressure washer to many industries. The high water flow makes it very useful for applications where a high level of dirt has to be removed or flushed away.

AaquaTruck – The AaquaTruck is a specialized hand truck designed to be used in tandem with an AaquaBlaster 360. Placing a barrel on the AaquaTruck easily inserts the AaquaBlaster inside. The AaquaTruck's small size and maneuverability can make a big impact, providing easy access to deep impingement cleaning wherever you might need it.

Mounting Racks – For easy insertion we offer a variety of storage and mounting racks. Our traditional 2 or 4 barrel pallet wash platform removes any need for heavy lifting when inserting our container cleaner.
