

Compact Tankless Hot High Pressure Washer

Unlimited Portable Hot Water Anywhere!

HotCart

Indoors, outdoors you name it hot water anywhere! Just provide the water and we'll heat it up to 185°F with flows up to 13.2 gallons per minute. With our pressure washer option, you can enjoy hot water and high pressure up to 2750 psi with flows up to 5.5 gpm.

The AaquaTools HotCart was developed by AaquaTools to replace traditional hot high pressure washers that rely upon water heated thru a coil that in turn makes the wash water non-potable and leaving particulates in the wash fluid. Because the HotCart uses onboard tankless water heaters to generate hot water, the finished product is exactly the same as the source water only heated. The HotCart's digital touch pad allows the operator to set a precise temperature +/- only 1 or 2 degrees. The tankless water heaters are fired by clean burning, high quality propane creating significant reliability, increased portability and an extremely user-friendly environment. No smelly diesel fumes or burner issues related to diesel, kerosene or less than high quality fuel.

Features

- Two on-demand gas water heaters
- High pressure pump
- Low emissions
- Two full digital control touch pads
- Quick-Connect compatible
- Four wheel cart with locking caster

Benefits

- Cuts water-heating costs up to 50%
- Produce high impingement cleaning results without wasting water
- Allows operation in ventilation poor environments
- Provides precise control of the water temperature
- Allows heavier applications use
- Ease of portability and moveability

Specifications

Power	220-440V, 3A
Pump	KEW high pressure, 8.8 hp
Flow Rate	13.2 gpm
Temperature	185°F (max)
Pressure	2750 psi
Water Heater	Noritz (2) energy efficient tankless water heater digital touch pads
Heat Source	LP, (2) 40# propane bottles with Quick-Connect
Installation	Portable
Frame	Stainless Steel with locking casters
Weight	500 lbs
Warranty	One year limited warranty

Ordering Information

HotCart	HotCart, KEW high pressure, 8.8 hp; 50' high pressure hose with stainless steel hose reel
LotWasher	Lot Washer 1122 11 hp Honda, 2200 psi, 4.0 gpm
107146814	KEW Poseidon 7-67 cold & hot water pressure washer

Accessories

Trigger Gun

Super Short Lance

Bayonet Fitting

Quick-Connect Coupler

Special Features

Constant Temperature Control. The PRO-TEC valve system maintains constant temperature while the digital control panel allows for precise control of the water temperature.

Energy Efficient. Using advanced technology allows for 80-85% efficiency in our product. AaquaTools tankless gas water heaters provide an endless supply of hot water while heating only the demand that is needed. This performance cuts water heating costs up to 50%.

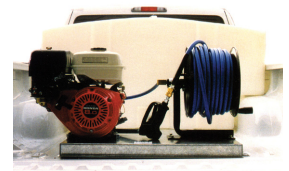

Low Emissions. Because of the high efficiency of our tankless heaters, the NOx emissions are minimized. In addition, because the water heaters only heat water on demand (less "on-time") they emit less CO than other water heaters.

Compatible Products

Poseidon Hot & Cold High Pressure Washer – The KEW Poseidon 7-67 premium class industrial cold & hot (up to 185°F) water pressure washer combines the renowned lifetime and quality of the C3 pump with optimal ergonomics to bring an unbeatable heavy duty pressure washer to many industries. The high water flow makes it very useful for applications where a high level of dirt has to be removed or flushed away.

Wash Skid – The AaquaTools wash skid features a 9 horsepower Honda GX390 gas engine. When coupled with a General Pump capable of producing 4 gpm @ 2000 psi, it is ideal for portable pressure washing. The Lot Washer is mounted on a galvanized skid that is truck mounted. When the pressure washer is attached to the AaquaClean+ Cabin Stand or AaquaClean+ Tank Cover, fast work is made of a dirty job that could easily qualify for the Discovery Channels 'Dirty Jobs' television series.

Applications

Remote/Portable Hot Water, High Pressure Washing, Tank Warming, Barrel Washing, Bottling Line Sanitation, Portable Shower or Wash Down Stations.
