

Cold & HOT High Pressure Washer

Mobile, Ergonomic & Robust Cleaning Equipment

Poseidon 7-67

The KEW Poseidon 7 Series by AaquaTools is a innovative premium class industrial cold & hot (up to 185°F) water pressure washer combines the renowned lifetime and quality of the KEW C3 pump with optimal ergonomics to bring an unbeatable heavy duty pressure washer for industry, agriculture, shipping, transport sector and food processing industry.

The high water flow of the Poseidon 7 series makes it very useful for applications where a high level of dirt has to be removed or flushed away.

Very robust machines, they are built on metal chassis with high quality components. They are the high pressure washers for professionals who depend on the machine that can work day after day, week after week and year after year.

AaquaTools has featured the KEW line of high pressure washers for 20 years because of their unparalleled track record, performance and reliability. The Poseidon 7 is an excellent choice to drive our products

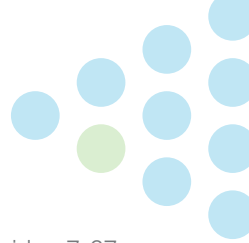

Features

- Four ceramic pistons and fiber-reinforced seals
- Two position switch changes from continuous to automatic to start and stop use
- Integrated filter
- External oil site
- Integrated flow sensor
- Easy accessibility to pump
- Compact design and folding handle
- Dual detergent compartments

Benefits

- Long-lasting performance and reliability
- Saves energy; only running the motor when you need it
- Prevents dirt from entering the pump
- Allows oil inspection outside the cabinet
- Run dry protection
- Easy to service
- Reduce storage space and/or easy to transport
- Switchable between A or B detergents

Specifications

| | |
|--------------------------|--|
| Class | Industrial |
| Motor | 8.8 hp |
| Voltage | 220-460V, 50 Hz, 25-13A |
| Power Consumption | 8 kW |
| Flow Rate | Up to 5.5 gpm (max) |
| Temperature | Up to 185°F (max) |
| Pressure | 2750 psi (max) |
| Phase | 3 |
| Pump | 1450 rpm |
| Cleaning Impact | 6.7 (kg/force) |
| Material | Steel chassis and frame with high quality components |
| Dimensions | 31" x 23" x 40" |
| Weight | 196 lb |
| Warranty | One year limited warranty |

Trigger Gun

4" Super Short Lance

Quick Connect Coupler

Bayonet Fitting

100' Hose Reel

Tornado Lance

Special Features

C3 Quality Pump – The heart and soul of the Poseidon 7-67 is the renowned, industrial class, C3 pump based on a tough 4 piston pump construction, double roller bearings, flow activated control system and 1450 rpm motor.

Powerful cleaning – Pressure levels of up to 195 bar provide heavy duty cleaning bringing working time down considerably.

Dual detergent tanks – Comes with two way detergent valves. Tanks are easily removable for emptying and filling. It is also easy to see the level of detergent remaining in each tank, thus allowing the user to pre-fill enough detergent before leaving for the work place.

Food and wine industry specialist – The Poseidon 7-67 is available with added extras for use in the food industry, including non-marking rubber wheels and hose, external detergent injector and stainless steel frame.

Ergo 2000 Spray Gun – The ultimate in ergonomics, user friendliness and adaptability. The spray gun has a 360 degree swivel reducing fatigue, plus with Ergo coupling just one click and the hose is connected for quick set up.

Easy access – Easy to open cabinet for quick and simple access for service and greater accessibility to service parts, saving time and costs.

Accessory Storage – Two lance holders ensure easy and convenient storage of accessories.

Compatible Products

The **AaquaBlaster LT** is designed to clean interior of wine barrels, tanks & and takes cleaning to a whole new level. The shape of the head as well as it's stand have been designed to make insertion as easy possible. The four nozzle configuration sweeps every surface.

The **AaquaBlaster 360** is designed to clean the interior of containers, tanks, carts, barrels, boxes— you name it. They're completely water driven, with a low flow rate and high pressure spray, producing stunning impingement cleaning results without wasting water.

Applications—Agriculture, industry, transport and building/ construction.
