## Portable Restroom Cleaning Redefined

### AquaClean+

AquaTools AquaClean+ is driven by hot or cold high pressure washers producing 4 gpm of flow or more. Fast and efficient porta-potty cleaning of portable restrooms, doesn't get any easier than this. AquaClean+ all-in-one Portable Restroom Cleaning System has helped make one of the worlds dirtiest jobs simpler and faster, drastically lowering costs of water and reducing man-hours. With the AquaClean+ Portable Restroom Cleaning System, you can clean any port-a-potty in less than 10 minutes without brushing or spraying. The system has a custom made stand for cleaning the cabin with the door closed as well as a seat cover for cleaning in the holding tank.

Applying high impingement cleaning to the portable restroom industry has saved companies thousands of dollars. The powerful rotating jets of water projected from the AquaClean+ in a 360 degree pattern quickly cleans the unit interior and holding tank, in a fast and efficient manner using less time and water than other methods. Even tip-overs are a breeze to clean using the AquaClean+ Portable Restroom Cleaning System.

- Easily adaptable
- Robust and reliable
- Eliminates open door cleaning
- Fast cleaning cycle
- Hands-free
- Eliminates odor

## Specifications

Class	Rotating jet-head
Power	Pressure washer-driven
Flow Rate	4 gpm or greater
Temperature	Cold or hot up to 185°F (max)
Pressure	100-2000 psi (adjustable); 2300 psi (permissible)
Nozzles	4 x 1/8" npt or 2 x 1/8" npt
Spray Coverage	6-10'
Cleaning Cycle	45 seconds and longer
Spray Pattern	240°
Inlet Connection	Standard 1/2" NPT
Insertion Opening	2" or greater
Lubricant	Self-lubricating
Installation	Portable
Material	Stainless Steel
Weight	8 lbs
Warranty	One year limited warranty

## Ordering Information

AaquaClean	AaquaClean+, two or four nozzle
	AaquaClean+ cabinet stand
	AaquaClean+ tank cover
Y-strainer/fitting	High pressure "Y" filter and ball valve
	High pressure "T" valve
107146814	KEW Poseidon 7-67 cold & hot water pressure washer

## Accessories

AaquaClean+ Cabin Stand

AaquaClean+ Tank Cover

Cleaning efficiency of the AaquaClean+ is achieved thanks to two or four stream jets that work at low flow rate but high pressure, thus providing a high impact washing. Stream nozzles rotate around a turret to provide complete orbital cleaning coverage of all interior surfaces.

The higher the flow the faster the rotation of the nozzles, producing a more rapid cleaning cycle. High pressure in-line Y filters are recommended and available to prevent particulates from interrupting the internal gears.

## Special Features

Oversized case and gears provide a significant advantage over the competition. Providing smoother motion, they can also withstand greater pressure. The gears are made from a revolutionary self-lubricating hard plastic that is more durable than brass.

A high pressure 'Y' filter and ball valve prevents particulates for entering the head and includes a bleed off valve for cleaning. The CartBlaster includes an on/off valve and 'T' connector for your pressure washer so you can easily transition between the CartBlaster and your wand.

The **KEW Poseidon 7-67** Hot & Cold High Pressure Washer is a premium class industrial cold & hot (up to 185°F) water pressure washer that combines the renowned lifetime and quality of the C3 pump with optimal ergonomics to bring an unbeatable heavy duty pressure washer to many industries. The high water flow makes it very useful for applications where a high level of dirt has to be removed or flushed away.
